### **EXAMINER'S AMENDMENT**

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

Authorization for this examiner's amendment was given in a telephone interview with J. W. Burrows on June 2, 2005.

The claims has been amended as follows:

in claim 1 line 26 (page 4 first line) "and the head end and rod end ports are blocked from the exhaust port" has been deleted; and  
in claim 1 line 34 (page 4 line 9) --always-- has been added after "equalization is".

### **REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: the combination of elements as claimed is deemed to be directed to an unobvious improvement over the invention patented by Budzich (4,028,889). Budzich (4,028,889) discloses that there is pressure equalization between both ends of the first fluid cylinder and/or a selected end of the second cylinder, only when the exhaust pressure (in line 33) is greater than the pressure at the inlet ports (e.g. in chamber 24), due to the check valve (60) therebetween. This improvement comprises that there is always pressure equalization between both ends of the first fluid cylinder and a selected end of the second cylinder.

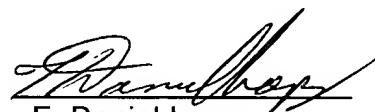

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, preferably **accompanies** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
